Summary

Profil

As a dedicated Network Administration student at NBCC, I am passionate about applying my technical skills in network management, data analysis, and problem-solving to contribute to FMI Group's mission of innovation and excellence. With a strong commitment to inclusivity and reliability, I aim to leverage my expertise through the internship program, gaining handson experience while supporting the development of efficient and accessible solutions that align

Experiences

### JFET Company

January 2022 — July 2023

IT Support Technician

Yaoundé, Cameroon

- Proactively identified and resolved network issues, increasing system uptime by 90%.
- Implemented network performance optimization measures, resulting in an estimated 40% increase in efficiency for key processes.
- Contributed to the architectural design of scalable network infrastructures, ensuring accessibility for all users.
- Collaborated with a diverse team of stakeholders to gather requirements and translate them into technical specifications for a new network infrastructure project.
- Provided efficient IT support to a diverse customer base.

with the company's values of diversity and forward-thinking.

#### **MTN Cameroon**

April 2021 — August 2021

Yaoundé, Cameroon

https://mtn.cm

Software engineer intern

- Developed and maintained high-quality software solutions using Java, PHP, HTML, and Python, ensuring optimal performance and adherence to quality standards.
- Collaborated with cross-functional teams to analyze requirements and implement efficient, scalable code, integrating accessibility considerations into the design process.
- Designed and optimized MySQL database structures, improving query performance for critical reports by an estimated 60%.
- Developed and maintained database schemas, stored procedures, and triggers, ensuring data integrity, security, and reliability.

**Educations** 

## New Brunswick Community College

September 2023 - Now

Network Administration

Diploma

3.7 / 4

https://nbcc.ca/

**Relevant Coursework**: Network Security, Data Center Virtualization, Database Management, Cloud Technologies, Technical Communication.

## Institute of Technology Fotso-Victor Network and Internet Design and Development Specialist

https://iutfv.univ-dschang.org/

Septembre 2022 - Juillet 2023 Bachelor's Degree

Program focused on network design and development, IT project management, and advanced methodologies for optimizing system performance and ensuring secure, scalable infrastructure.

# Institute of Technology Fotso-Victor

November 2020 - July 2022

Software Engineering 3.4 / 4

Diploma

https://iutfv.univ-dschang.org/

Training focused on the fundamentals of computer science, application development, and system administration, with an emphasis on designing, managing, and optimizing IT infrastructures.

Skills

## **Networks & Security** Home office, Business,

Soft Skills Cloud

Enterprise Networks, Network Solutions, and Security, Network Monitoring Tools (Wireshark)
